Address: Hmawbi, Yangon

Age: 23,

Date of Birth: 1999/5/30,

NRC: 12/ Ma Ba Na (Naing) 141059

SUMMARY

I'm a backend developer and a hobbyist game programmer. I'm ready to take junior level developer job, willing to learn new things and have fair amount of communication skill. I can also finish the tasks within the deadline.

SKILLS

- Languages : Java, Javascript

- Frameworks : Spring, JSF

- Libraries : Jquery, Bootstrap

- IDE : Eclipse, Visual Studio Code

- OS : Windows

- Databases : MySQL database

WORK EXPERIENCES

Spring Ecommerce Shop (August - November 2022)

October - November 2022

-Implemented chat messaging system by using Simple Text Oriented Messaging Protocol (STOMP). So that customers can communicate with site admin.

September 2022

-Implemented REST API for showing data summary in dashboard.

-Implemented login and logout system by using Spring Security to be more secure.

August - September 2022

-Implemented CRUD for category, product, order, user by using Spring data jpa and Mysql database.

PERSONAL PROJECTS

Spring Ecommerce shop (August - November 2022)

-An ecommerce shop, as a part of my bootcamp assignment, was written in java spring by using Spring Web, Spring Data JPA, MYSQL database. This project was built using a combination of both MVC and REST API architectures.
